

MDVR-FIREBOX32GB

Main Features

- Sealed waterproof design, IP67@1atm
- Rugged shell, effective protect the data security
- Safer data because of the separated design of main logic board and memory core board
- MLC memory particles, supports 5,000 times recycle covering
- Similar to plane black box standard, applicable to 1100°C @20min/950°C @30min
- Three levels fireproof design
- Small size and easy installation

Overview

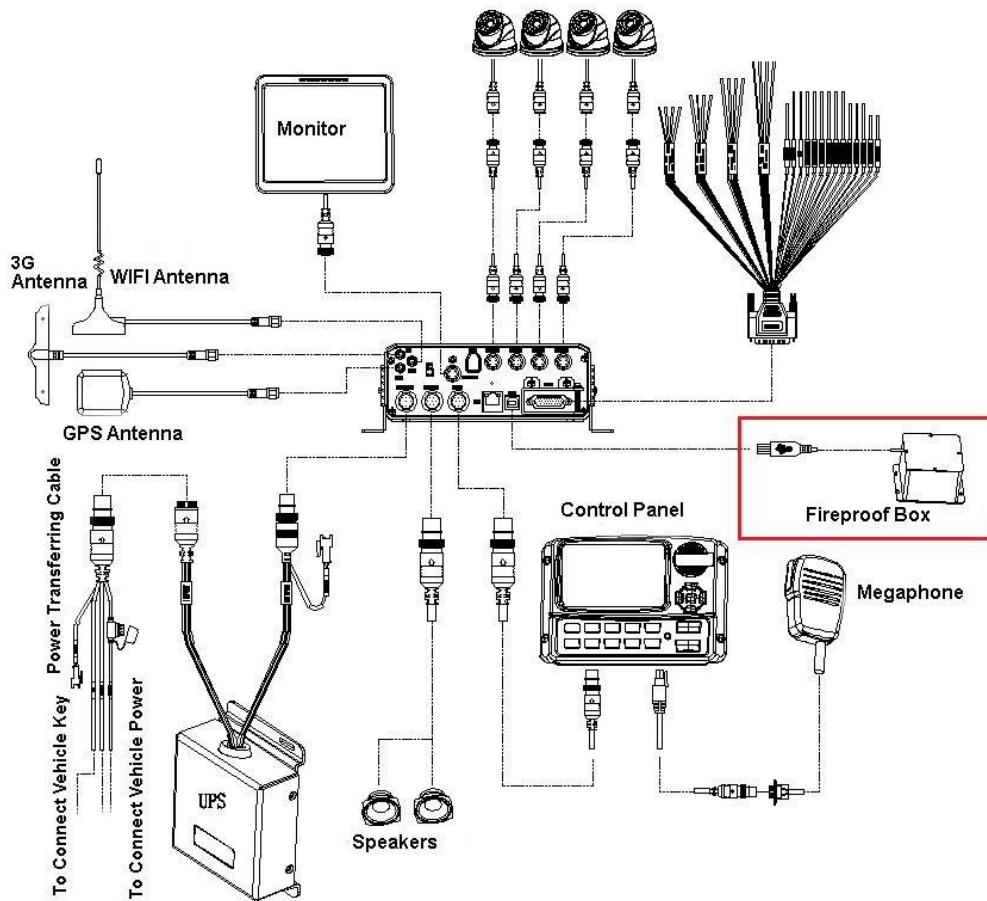

Meriva Security® brand new fireproof box is specially designed for mobile digital video recorder in case there are catastrophes, especially fire accidents. The mobile audio/video storage data will be protected well in the fireproof box, avoiding physical, irreversible data damage. With Meriva Security® fireproof box, the protected data could be kept, read and analyzed after accidents.

Specification

Product Series	Fireproof Box
Interface	USB2.0
Rate	≥10MB/s
Capacity	32GB
Memory Particles	MLC
Writing Times	5,000 times
Refractory Period	950°C @30min/1100°C @20min
Max Refractory Temperature	1250°C
Waterproof Rate	IP67@1ATM/24H
Dimension	112(L)*82(W)*72(H)
Weight	≈1.2Kg

Internal Structure

Using Methods

Fireproof box works well with Meriva Security® MDVR to protect video data. Connect fireproof box with MDVR, select external mirror recording and format fireproof box before using the device.
